Old World sets

With the holiday season fast approaching, we sat down with Temp-tations Presentable Ovenware creator Tara McConnell to get the latest and greatest pieces coming to the collection, as well as never-fail tips for holiday entertaining.

Having just celebrated five fabulous years here at QVC, Tara reflects on her inspiration and passion for such a unique and versatile product: "As the designer, it is my goal to bring artistic beauty to everyone's dining experience. Temp-tations Presentable Ovenware is just that. It gives you a way to cook your favorite meals with a special twist—the dish you cook in is the dish you serve and store in!"

This line of cookware is different from most anything you can find in a traditional kitchen store. Temp-tations Presentable

Ovenware is a two-part system—an artful baking dish plus either a wrought-iron basket or trivet. This double-duty set allows you to customize your tablescape. And storage is a snap. The pieces nest together to maximize your cabinet space. But with serveware this beautiful, we're not sure why you'd want to hide it away!

More than just another pretty plate, Temp-tations Presentable Ovenware is made of high-quality, durable ceramic. It is also naturally non-stick. And it is oven-safe up to 500°F, dishwasher-, microwave- and freezer-safe.

But, we do love that they are, in fact, pretty! Temp-tations Presentable Ovenware is beautifully crafted in classic designs from around the world, adding flavor to any kitchen décor. Don't banish your bakeware, display it and decorate with it instead!

These heirloom-quality pieces are also popular collectibles, dressing tables, countertops and hutches from season to season. Knowing how much you love your Temp-tations Presentable Ovenware, Tara tries very hard to incorporate all of your suggestions and requests into her designs. And that is why she is very excited to give you a sneak peek at her new, never-before-seen products! This fall QVC will feature dinnerware with a matching completer set, linens and a variety of tabletop ideas. "I will also be launching my first-ever expanded flatware set in two beautiful patterns," says Tara, "inspired by old-world traditions and our many new additions."

Tara feels very lucky and grateful to be welcomed into your homes time and time again, both here on QVC and each time you display one of her thoughtfully crafted pieces. We hope your Temp-tations Presentable Ovenware warms not only your meals, but also your hearts, as you create new and magical memories around your dinner table this holiday season.

It is my goal to bring artistic beauty to everyone's dining experience.

Tara serves up her top tips for holiday entertaining:

1. PLAN AHEAD. Make your shopping lists, determine your menu and what dishes will be brought by others, and prepare as much food as you can ahead of time. Remember, the point of the holiday season is to spend time together...not in the kitchen!

2. SET THE STAGE. A beautifully set table shows off not only your festive spirit, but also your food. Remember, we eat with our eyes first. An irresistible display will enhance your dining experience. Don't be afraid to mix and match using Temp-tations Presentable Ovenware. The fun colors add extra flavor to your table!

3. KEEP IT SIMPLE. The hustle and bustle of the season is stressful enough. Make sure you can thoroughly enjoy your time together by sticking to tried-and-true favorites. Prepare dishes you feel good about making. You'll be able to relax and really make the most of any get-together.

4. BE THANKFUL. The holiday season is a notorious whirlwind of events and activities. We often forget to take time to really appreciate our loved ones and the joy they bring to our lives. Share those thoughts and feelings with your family and friends for a truly memorable season!
